About Us

Who We Are

Rebuilding Together Metro Denver is a nonprofit that provides free home repairs for low income homeowners. RTMD brings volunteers and communities together to improve the homes and lives of low-income homeowners because we believe everyone deserves a safe and healthy home.

Ways To Partner

Sponsor a Rebuilding Day - Sponsoring a Rebuilding Day is one of the most effective and direct ways to support the RTMD mission. Rebuilding Days are a wonderful opportunity for companies to enrich the lives of their employees, strengthen team relationships, and positively impact the life and home of an older adult, veteran, or person living with a disability. These one-day projects produce a lasting impact toward the RTMD mission of providing a safe and healthy home for everyone.

Be an In-Kind Donor - The repair and renovation work on older homes, many in total disrepair, is a complex process. Skilled tradespeople are an integral part of the work that RTMD accomplishes and makes a profound difference in the lives of the vulnerable population we serve. Donating your knowledge and skills to RTMD is a very rewarding way to ensure a safe and healthy home for everyone.

Sponsor our Other Repair Programs - If you would like to become a RTMD partner but do not have a team of volunteers, consider supporting our year round repair programs. Partnership levels range in cost, depending on your area of interest and specific needs that exist in our communities.
ABOUT REBUILDING DAYS

Rebuilding Together Metro Denver is committed to providing a positive experience for everyone involved, for all “rebuilding day” projects we take care of the following:

- Identifying an appropriate project based on number of volunteers, and their skill levels
- Communicating with homeowner and family
- Coordinating work scope, and securing all needed materials and supplies (including dumpsters and portable restrooms)
- Arranging for supplemental skilled labor as needed to assist with necessary repairs, including arranging for a skilled volunteer captain to lead projects during the build day (if needed)
- Providing t-shirts, breakfast, lunch, snacks, and drinks for volunteers

We will also ensure that there is an RTMD staff member or representative on site during the duration of the project to provide coordination and support.

Partners are responsible for:

- Contributing the agreed upon sponsorship amount to RTMD
- Selecting an in-house project lead who is the main point of contact for the RTMD programs team. The project lead is also responsible for recruiting and managing volunteers.
National Rebuilding Day and the Fall Rebuild-a-Thon are our annual one day community revitalization events. We bring together 100s of individuals to provide major and minor home repairs and home safety materials to qualified homeowners and community resources in need.

Each year, we select a target community in the Denver Metro. By collaborating with other community revitalization efforts, we are able to maximize and sustain a positive impact on the targeted community. In 2018 we will be focusing our efforts in Adams County.

On Saturday April 28th, 2018, homeowners and community members in one Adams County neighborhood will benefit from National Rebuilding Day. Our fall Rebuild-a-Thon is scheduled for September 29th, 2018.

Rebuilding Together Metro Denver serves homeowners who, due to financial or physical limitations, have been unable to maintain their houses. The result of our efforts is a lasting impression and life-changing experience for our volunteers and the people we serve on National Rebuilding Day.

"I am so proud I could cry. Thank you so much from my heart."
- Cleo, Program Recipient

### Why is a donation required?

*Teams contribute a tax-deductible donation (based on the size of your group) to cover the costs of planning your Rebuilding Day, materials, tools, and supervision. This support also allows us to continue to provide home maintenance and repairs through our year-round programs for low-income seniors, veterans, and those with disabilities and their caregivers. Your partnership contribution is crucial in providing support to the metro area’s most vulnerable individuals.*
To provide home repairs year round we give partners the opportunity to participate in our Give Back Day program. This program is perfect for groups that need to work according to their own schedule and business cycle. Give Back Days are a fantastic team-building and employee engagement opportunity.

The responsibilities of RTMD and the partner remain the same for Give Back Days.

**Give Back Day sponsorships start at $10,000 and include the following:**

- Engagement for up to 25 volunteers at one site
- Logo on back of t-shirts and logo sign in front of work site
- Logo and link on website for one year
- Logo and link included in one e-news letter
- Social media post during project day
- Name in annual report

**Give Back Day sponsorships are customizable and add-on’s include:**

- Increasing volunteer numbers
- PR/Marketing: Co-branded press release & media outreach, photography, increased social media posts
- Special sites or projects

Our goal is to provide a fulfilling day for volunteers where they can see the impact of their good deeds.
In addition to rebuilding day projects, RTMD provides assistance to clients through our Safe at Home and Emergency Home Repair programs.

The **Safe at Home** program focuses on addressing minor home repair needs before they become serious safety or deferred maintenance issues. Typical repairs include grab bars, handrails, leaking faucets, running toilets, and smoke and CO alarms.

The **Emergency Home Repair Program** centers around urgent home repairs including heat, water and electrical repairs. Our program stands apart due to our quick response – providing significant and urgent solutions most often within 48 hours. These critical repairs can keep families in their homes, avoiding health department or social service interventions.

Safe at Home & Emergency Repair Sponsorships start at $1,500 and can include volunteer opportunities.

"Words can not express our thanks and gratitude for all you did to get our plumbing fixed. It was great knowing we could wash clothes, flush the toilet, and take a bath without worry. Thank you." - Leonard & Doris, Program Recipients
